

What is eLunch?

We use the
DSK student cards
for eLunch!

Please note:
Debit cards are
not accepted,
the system only
accepts credit &
cheque cards.

Our cafeteria and tuckshop makes use of a **cash-free prepaid system** called eLunch.

Parents can **load money online** onto their child's account, monitor purchases made and select items that cannot be bought.

Meals purchased with an eLunch account are **discounted**.

How it works:

Buy credit online

Child pays with student card

- **go to the webpage:** <http://elunch.dsk.co.za>
- **Username:** barcode number on student card, remove the * (the star/asterisk)
- **Password:** same as the default username, letters must all be in capitals, *eg. LEA2188872*

• Once you have logged in, you can;

- click on **Deposit Funds** to transfer money from your bank account into your child's eLunch account
- click on **Accounts** to see transactions and view purchases made
- click on **Item Restrictions** to limit the items your child can purchase

• **Forgot your password?** Click on **Logon** on the screen, and then on **Forgot Password?**
